

IILM UNIVERSITY

Greater Noida

PYTHON FULL STACK WEB DEVELOPMENT

Summer Internship Presentation

STUDENT NAME

Kritika Agarwal

ENROLLMENT NUMBER

25SCS1003005275

PROGRAM & SEMESTER

B.Tech CSE, Sem 3 (2nd Year), Section 2CSE15

ORGANIZATION

EduSkills Academy (AICTE Virtual Internship)

Internship Program Overview

1

Organization

EduSkills Academy
(under AICTE patronage)

2

Domain

Python Full Stack
Developer

3

Duration

June 2026 – August 2026
(8 Weeks)

4

Mode

Virtual / Online
Internship

EduSkills Academy is an ISO 9001:2015 & ISO 27001:2013 certified, Great Place to Work Certified organization operating under the mission "Nation Building Through Skills." This 8-week AICTE–EduSkills Virtual Internship Program was designed to provide structured, industry-relevant learning combined with practical, hands-on exposure to full stack web development — following a week-wise curriculum, weekly assessments, project submissions, and a Final Assessment Test.

Objectives of the Internship

1

Understand and apply HTML & CSS fundamentals for structuring and styling web pages

2

Build responsive, mobile-first interfaces using the Bootstrap framework

3

Implement client-side interactivity using JavaScript and jQuery

4

Learn Python programming fundamentals, including OOP concepts

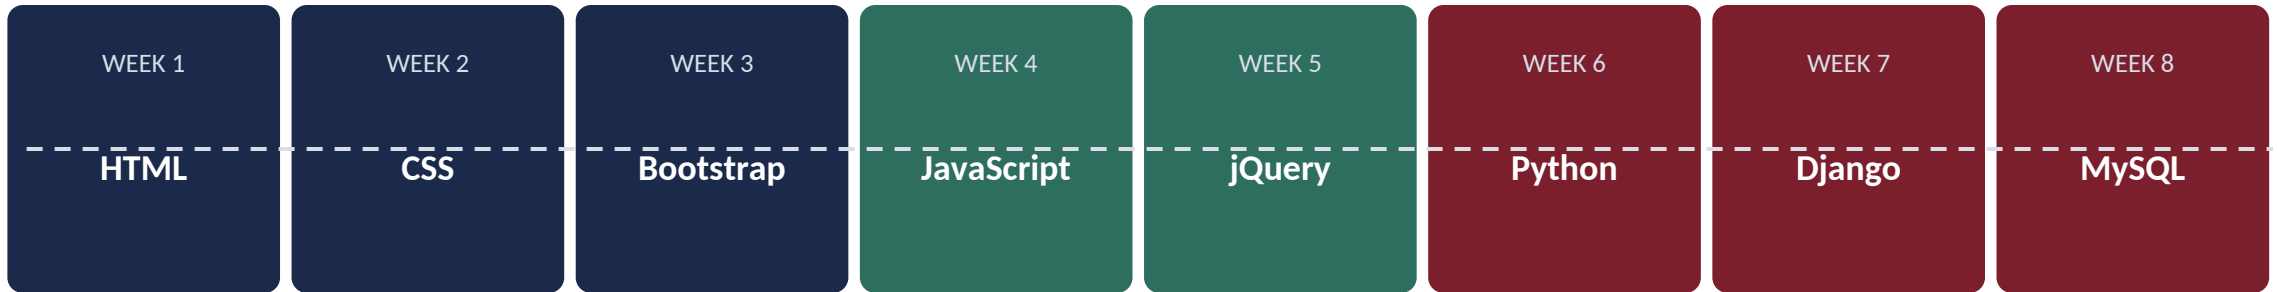

5

Develop dynamic, data-driven web applications using Django

6

Design relational databases and perform CRUD operations using MySQL

Week-wise Learning Roadmap

Front-End (Weeks 1–3): Page structure & styling, responsive design with Bootstrap | Scripting (Weeks 4–5): Interactivity with JavaScript & jQuery, DOM & AJAX | Back-End (Weeks 6–8): Python programming, Django framework, MySQL database integration

Evaluation: Weekly assessments + project documentation + Final Assessment Test in Week 8

Technologies & Tools Used

Front-End

- HTML5
- CSS3
- Bootstrap 5
- JavaScript
- jQuery

Back-End

- Python 3
- Django Framework

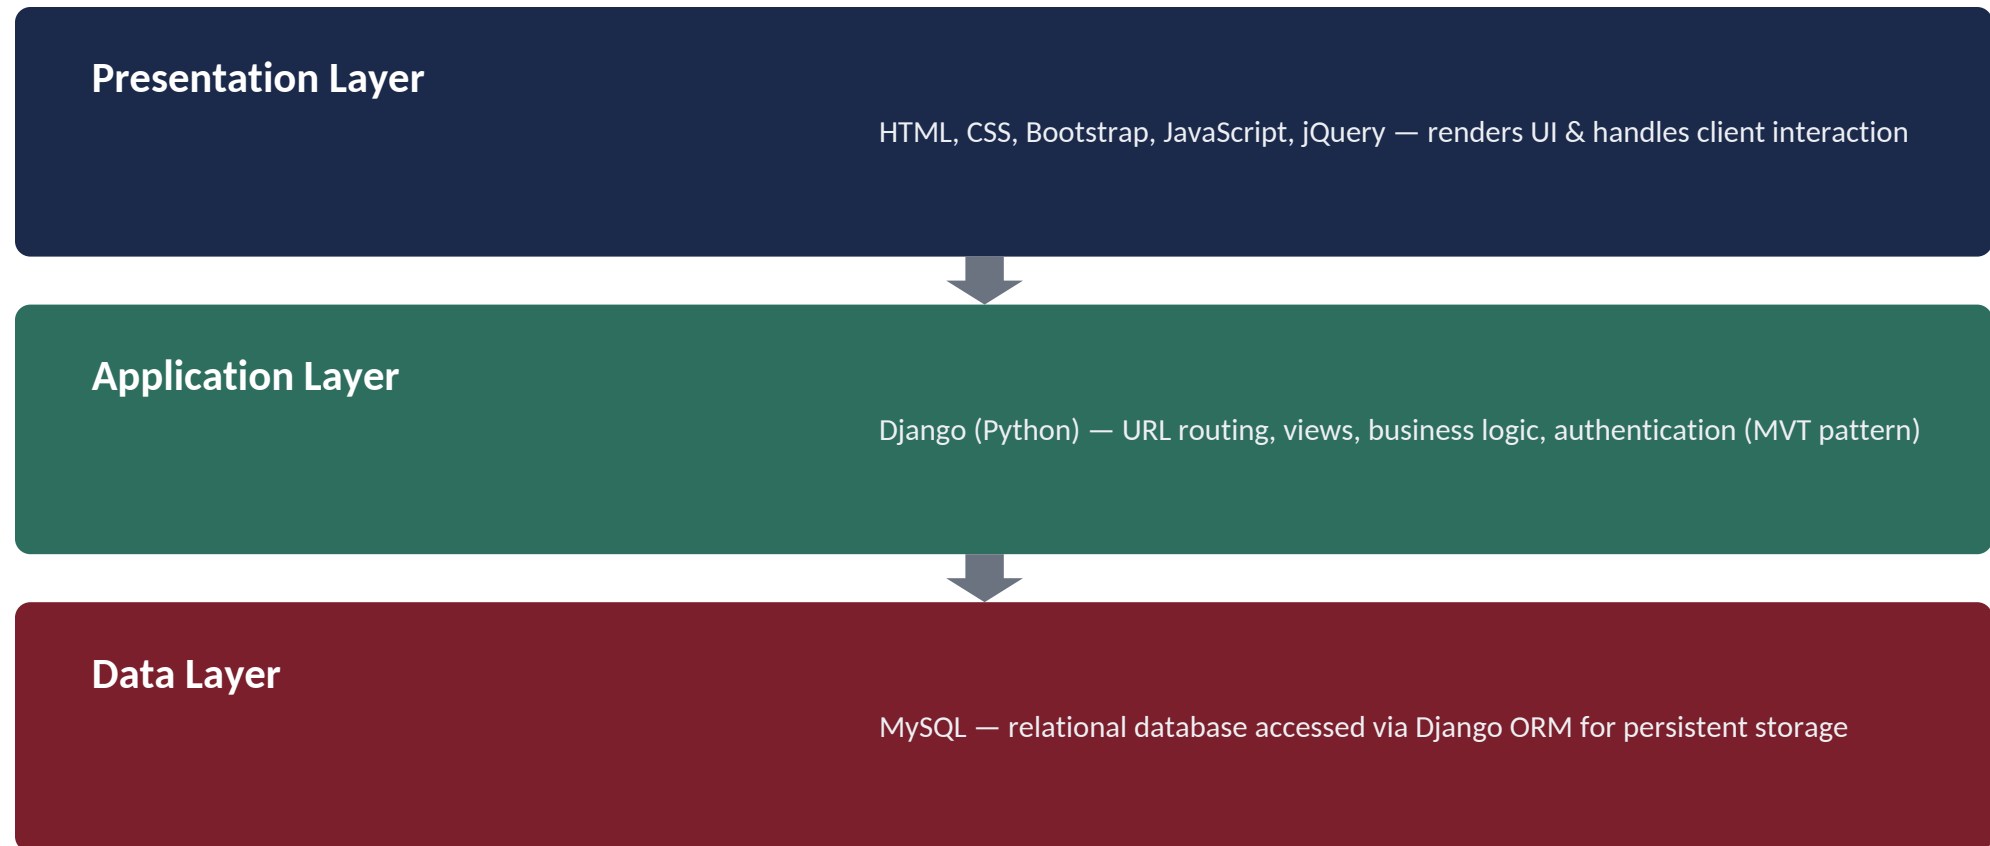

Database

- MySQL

Dev Tools

- VS Code
- Git & GitHub
- Postman

System Architecture

Front-End Development

Weeks 1 - 3

- Structured semantic web pages using HTML5 — forms, tables, layout elements
- Styled pages with CSS3: selectors, box model, positioning, flexbox & grid
- Built fully responsive, mobile-first layouts using the Bootstrap grid system and pre-built UI components
- Practiced cross-browser, cross-device compatible design principles

Scripting & Back-End Development

Weeks 4 - 7

- Added client-side interactivity and DOM manipulation with JavaScript
- Simplified event handling, animations & AJAX calls using jQuery
- Learned Python fundamentals: data types, functions, loops, OOP concepts
- Built dynamic web applications using Django — models, views, templates, routing & authentication

Database Management

Week 8

- Learned SQL fundamentals and relational database design principles
- Performed CRUD (Create, Read, Update, Delete) operations using MySQL
- Integrated MySQL with Django applications using Django's ORM layer
- Designed normalized database schemas to support application data models

Key Learnings & Skills Gained

Across 8 weeks, hands-on practice translated into the following core competencies:

Full stack web development, end-to-end

Front end to back end to database, in one workflow

Responsive, mobile-first UI design

Bootstrap grid, flexbox & media queries

Python & object-oriented programming

Core syntax, functions, classes & OOP concepts

Django MVT architecture

Models, views, templates & routing

Relational database design (MySQL)

Schema design & CRUD operations

Version control using Git & GitHub

Tracking changes & managing source code

Ready to apply these skills to real-world full stack projects.

Expected Outcomes

- 1 Practical proficiency across the full web development stack
- 2 A complete, functioning web application integrating all learned technologies
- 3 Improved problem-solving and independent-learning capability
- 4 Enhanced employability and industry readiness in full stack development
- 5 Foundation for advanced projects in Python, Django & database-driven applications

Thank You

Kritika Agarwal | 25SCS1003005275 | B.Tech CSE, Sem 3
